Solution-oriented developer with a passion for exercise and well-being. I am comfortable working in smaller as well as bigger teams. I value highly that my colleagues are feeling as good as possible, and I prefer to work with structure and process with a focus on team communication. I never resist learning new technologies, and I am always on the lookout for possible ways to improve myself in the profession.

SKILLS

JavaScript – React – Gatsby – Next – GraphQL – Node – Python – Django – Postgres – Docker – Kubernetes – Google Cloud Platform – CI/CD – Git

EXPERIENCE

GameFlint, Helsingborg – *Full Stack Developer (Consultant)*

FEB 2023 – NOW

- GameFlint is an upcoming video game tracking and library management app. Track your own progress of games, view upcoming games, see reviews, and more.
- Part of building the public facing web app
- *TypeScript, Deno, React*

YouTube Timestamps, Helsingborg – *Creator, Developer*

SEP 2022 – NOW

- Public facing Chrome/Firefox Extension easing accessibility of YouTube video description timestamps, comment timestamps, chapters and key moments.
- Makes it very easy to get an overview of sections of relevance without looking on the YouTube video page itself
- *TypeScript, React, React Testing Library, Chrome Extension Manifest V3 ecosystem, Graphics Design*

Huawei, Lund – *Frontend Developer (Consultant)*

MAR 2022 – SEP 2022

- Involved in building custom tools within the vscode plugin ecosystem to be used by hardware engineers
- *JavaScript, TypeScript, CSS, Canvas, .NET, Docker, Vscodex plugin ecosystem, Web Components*

Changemaker Educations, Stockholm – *Teacher (Consultant)*

OCT 2021 – JAN 2022

- Teaching 40 students the foundations of frontend development
- Remote lectures through Microsoft Teams
- Education level: Yrkeshögskola
- *JavaScript, HTML, CSS, Responsive Web Design, Node*

Klarna, Stockholm – *Frontend Developer (Consultant)*

MAR 2020 – MAJ 2021

- Klarna is a Swedish fintech company providing credit services for consumers to buy now, pay later, amongst numerous other services
- Working within the *Core Banking* domain, I was responsible for setting up two websites providing technical documentation within and outside the domain, meant for integrators of the tools we provide
- The work I did eventually ended up forming a team around customer obsession, called *Core Banking Experience*
- *JavaScript, React, Gatsby, TypeScript, GraphQL, Postgres, Docker, AWS, Node*

Dannie Håkansson AB, Stockholm – *Founder, CEO*

FEB 2020 – NOW

- Consultant and freelancing under my own company

Tjapp Nordic, Stockholm – *Fullstack Developer, co-founder*

SEP 2019 – JAN 2020

- Together with two others I aim to build a product where customers can order video shoutouts from celebrities.
- *JavaScript, React/Next, GraphQL, Python, Django, Postgres, Docker, Kubernetes, Digital Ocean*

DYNAMO Digital Ventures, Stockholm – *Fullstack Developer*

JUN 2015 – SEP 2019

- Employed as a consultant, hired by several customers listed below.
- Initial focus on Frontend, which later evolved into Fullstack.
- *JavaScript, AngularJS, React, Gatsby, Android, GraphQL, Node, Python, Django, Postgres, Docker, Kubernetes, Google Cloud Platform*

PlayReplay, Stockholm – *Frontend Developer (Consultant)*

JUN 2019 – SEP 2019

-
- PlayReplay is building a product where you can “track” your tennis playing with camera technology in real time. They are also creating a streaming platform for tennis players.
 - Hard deadline five days in the future where a demo of the streaming platform was promised. Later also maintenance with implementation of new design.
 - *JavaScript, React, Semantic UI, Firebase, Java, Kurento*

E-Switch, Stockholm – *Fullstack Developer (Consultant)*

MAR 2018 – APR 2019

- A digital platform that enables adaptive streaming of VoDs and live streams. Their customers integrate with this platform to benefit from these types of products.
- I was part of building this from the ground up, from Frontend to Backend.
- Large focus on DevOps, networking, server configuration and CI/CD workflows.
- *JavaScript, jQuery, Node, Python, Django, Postgres, Docker, Kubernetes, Google Cloud Platform, CI/CD, Codefresh*

Bookatreat, Stockholm – *Frontend Developer (Consultant)*

FEB 2019 – MAR 2019

- Bookatreat aggregates the supply of beauty salons in your phone.
- I built an administrative application for the company themselves to use in order to handle reviews that had been submitted in the mobile app. This launched alongside the possibility to leave reviews.
- *JavaScript, React, Firebase*

LoopRocks/NCC, Stockholm – *Fullstack Developer (Consultant)*

FEB 2017 – DEC 2017

- LoopRocks is the initiative of NCC to change the construction industry to something more climate aware. Supply and demand of dirt, gravel and rubble are matched to minimize waste.
- I maintained the backend system, which included an API consumed by mobile clients as well as an admin/back office application where LoopRocks could manage the ads.
- LoopRocks expanded to Denmark, Finland, Norway and The Netherlands, something I was very much involved in. This included, amongst other things, multi-language support and ads belonging to “different markets”.
- *JavaScript, jQuery, Material Design Lite, Python, Django, Postgres*

DnB, Stockholm – *Frontend Developer (Consultant)*

SEP 2017 – OCT 2017

-
- DnB is the biggest player within bank and finance in Norway.
 - I built an internal web application meant for sales people at DnB to onboard customers in order to sign a car insurance.
 - Short deadline required quick work. The project was handed over to DnB for further development.
 - Focus on delivery, packaging and documentation.
 - *JavaScript, AngularJS*

Triple, Stockholm – *Frontend Developer (Consultant)*

OCT 2016 – FEB 2017

- The service enables travelers to book activities published by “hosts” that live in the city they are visiting. A more personal type of sightseeing.
- Worked close to the customer being responsible for the frontend development for the initial MVP release.
- *JavaScript, jQuery, Bootstrap*

ETNetwork/Kwick, Stockholm – *Frontend Developer (Consultant)*

SEP 2016 – OCT 2016

- Kwick is a product for management of digital receipts.
- I was part of implementing and deciding the initial design and structure for an administrative application meant for their customers.
- The tight deadline required a well-thought-out work process with clear communication.
- *JavaScript, AngularJS, Material UI*

ICA, Stockholm – *Frontend Developer (Consultant)*

NOV 2015 – JUL 2016

- ICA is the biggest grocery retailer in Sweden.
- Being part of an agile team I built “HITTA VARA”, a web application where the customers in the store can find their wares on an interactive and searchable map.
- *JavaScript, AngularJS, Bootstrap, vendorizing packages(npm)*

FitnessCollection, Stockholm – *Frontend Developer (Consultant)*

JUN 2015 – DEC 2015

- FitnessCollection aggregates supply of gyms and yoga studios in one membership.
- I was part of building an admin/back office system meant for FitnessCollection themselves to manage training sessions, users, organizations, studios etc.
- *JavaScript, AngularJS, Bootstrap, Gulp, Google App Engine*

Oriflame Cosmetics, Stockholm – *Android Developer (Consultant)*

SEP 2015 – OCT 2015

- Oriflame is a Swedish cosmetics company with business in over 60 countries.
- I was part of building a checkout as part of the mobile app Makeup Wizard on Android, an app where users can try on makeup and cosmetics in real time.
- *Java, Android*

EDUCATION

Yrkeshögskola C3L Systemutvecklare Java, Stockholm – *Exam*

AUG 2013 – MAJ 2015

Vocational education with a syllabus focused on Java backend and databases but also mobile application development, web development, agile methodologies and communication. I was the class representative during the last year.

Malmö Högskola, Stockholm – *Independent courses*

AUG 2012 – MAJ 2013

I was introduced to programming and software development by attending independent courses Programvaruutveckling 1 and 2, Programmering 1 and 2 as well as Datastrukturer at Malmö Högskola.
