danniehakan@gmail.com
danniehakansson.com

Solution-oriented developer with a passion for leading by example.
I value highly that my colleagues are thriving psychologically as well as technically, and although I prefer to work with structure and process, I can fit in wherever needed. I am always on the lookout for possible ways to improve.

IKEA – **Ingka Group Digital, Malmö** – *Lead Full Stack Developer (Consultant)*

JUL 2023 – NOW

- Part of building the public facing enterprise e-commerce platform that is ikea.com.
- Working in a distributed backend microservices environment, as well as a distributed microfrontend environment, I've been part of multiple high performing teams serving millions of customers globally through multiple channels
- Lead a team of 6 developers, coordinating engineering baselines for quality and development practices, unblocking wherever needed by providing a more holistic perspective. Also worked closely with product to align future initiatives
- *Golang, Typescript, Docker, Terraform, GCP, CI/CD*

Tubestamps, Helsingborg – *Creator, Developer*

SEP 2022 – NOW

- Self-developed and self-hosted public facing browser extension easing the navigation of YouTube video content
- 500+ active users globally
- https://tubestamps.app/
- *TypeScript, React, React Testing Library, Chrome Extension Manifest V3 ecosystem, UI/UX Design*

Changemaker Educations, Stockholm – *Teacher (Consultant)*

OCT 2021 – JAN 2022

- Teaching 40 students the foundations of frontend development
- Remote lectures through Microsoft Teams
- Education level: Yrkeshögskola
- *JavaScript, HTML, CSS, Responsive Web Design, Node*

Klarna, Stockholm – *Frontend Developer (Consultant)*

MAR 2020 – MAJ 2021

- Klarna is a Swedish fintech company providing credit services for consumers to buy now, pay later, amongst numerous other services
- Working within the *Core Banking* domain, I was responsible for setting up two internal websites providing technical documentation within and outside the domain, meant for integrators of the tools we provide
- The work I did eventually ended up forming a team around customer obsession, called *Core Banking Experience*
- *JavaScript, React, Gatsby, TypeScript, GraphQL, Postgres, Docker, AWS, Node*

DYNAMO Digital Ventures, Stockholm – *Fullstack Developer*

JUN 2015 – SEP 2019

Employed as a consultant, hired by several clients listed below. Contracts were shorter as most assignments involved companies in startup positions in need of acceleration (MVP development)

Bookatreat, Stockholm – *Frontend Developer (Consultant)*

FEB 2019 – MAR 2019

- Bookatreat aggregates the supply of beauty salons in your phone.
- I built an administrative application for the company themselves to use in order to handle reviews that had been submitted in the mobile app. This launched alongside the possibility to leave reviews.
- *JavaScript, React, Firebase*

NCC (LoopRocks), Stockholm – *Fullstack Developer (Consultant)*

FEB 2017 – DEC 2017

- LoopRocks was the initiative of NCC to change the construction industry to something more climate aware. Supply and demand of dirt, gravel and rubble are matched to minimize waste.
- I maintained the backend system, which included an API consumed by mobile clients as well as an admin/back office application where LoopRocks could manage the ads.
- LoopRocks expanded to Denmark, Finland, Norway and The Netherlands, something I was very much involved in. This included, amongst other things, multi-language support and ads belonging to “different markets”.
- *JavaScript, jQuery, Material Design Lite, Python, Django, Postgres*

DnB, Stockholm – *Frontend Developer (Consultant)*

SEP 2017 – OCT 2017

- DnB is the biggest player within bank and finance in Norway.
- I built an internal web application meant for sales people at DnB to onboard customers in order to sign a car insurance.
- The short deadline required quick work. The project was handed over to DnB for further development.
- Focus on delivery, packaging and documentation.
- *JavaScript, AngularJS*

Triple, Stockholm – *Frontend Developer (Consultant)*

OCT 2016 – FEB 2017

- The service enables travelers to book activities published by “hosts” that live in the city they are visiting. A more personal type of sightseeing.
- Worked close to the customer being responsible for the frontend development for the initial MVP release.
- *JavaScript, Bootstrap*

ETNetwork/Kwick, Stockholm – *Frontend Developer (Consultant)*

SEP 2016 – OCT 2016

- Kwick is a product for management of digital receipts.
- I was part of implementing and deciding the initial design and structure for an administrative application meant for their customers.
- The tight deadline required a well-thought-out work process with clear communication.
- *JavaScript, AngularJS, Material UI*

ICA, Stockholm – *Frontend Developer (Consultant)*

NOV 2015 – JUL 2016

- ICA is the biggest grocery retailer in Sweden.

- Being part of an agile team I built “HITTA VARA”, a web application where the customers in the store can find their wares on an interactive and searchable map.
- *JavaScript, AngularJS*

FitnessCollection, Stockholm – *Frontend Developer (Consultant)*

JUN 2015 – DEC 2015

- FitnessCollection aggregates supply of gyms and yoga studios in one membership.
- I was part of building an admin/back office system meant for FitnessCollection themselves to manage training sessions, users, organizations, studios etc.
- *JavaScript, AngularJS, Bootstrap, Gulp, Google App Engine*

EDUCATION

Yrkeshögskola C3L Systemutvecklare Java, Stockholm – *Exam*

AUG 2013 – MAJ 2015

Vocational education with a syllabus focused on Java backend and databases but also mobile application development, web development, agile methodologies and communication. I was the class representative during the last year.
